

The A1 Security Starbox

Speaker / Mic

Radio Key Fobs

The A1 Security Starbox was created and has been used to address confrontation and conflict, a major increasing problem where staff have to deal with the general public. The current Corporate Manslaughter law has potentially placed a great responsibility on to management to provide some form of protection or support for their staff in situations where they can be placed in possible danger or subjected to conflict or intimidation.

When installed and administered correctly, the A1 Security Starbox can be used to support staff and to provide assistance in times of need or emergency such as police or paramedics. It can be used as a deterrent against potential troublemakers and has been proved to help reduce shoplifting. Some stores have reported a 30% decrease in shoplifting losses.
